

# Wessex Integrated Care, Population Health, Research and Innovation Learning Event: Discover, develop, deploy

*Supported by the founding partners of WHP, NIHR infrastructure and HIW*

**Date:** Friday 15<sup>th</sup> March 2024

**Time:** 09:00 – 16:00

**Venue:** Axis Conference Centre, Chilworth, Southampton, SO16 7NP

You are invited on behalf of the Wessex Health Partners strategic alliance to our Integrated Care, Population Health, Research and Innovation Learning Event on March 15<sup>th</sup> 2024, at the Axis Centre, Southampton Science Park, Chilworth.

This event will bring together leaders in the NHS, public health and research and innovation in Hampshire and Isle of Wight and Dorset to develop a greater understanding of the health and care challenges and priorities in the Wessex geographic region, the new structures aimed at enabling integrated health and care, expectations and opportunities for research and innovation in meeting local population health need.

During the day we will explore what integrated care and population health means, discuss the expectations of research and innovation funders in meeting health and care need, share examples of resources and insight available in our region, and consider next steps for working together to accelerate improvements in health and care for our local population and wider society.

**Link to register:**

<https://www.eventbrite.co.uk/e/wessex-integrated-care-population-health-research-and-innovation-event-tickets-827008774507>

**Aims:**

To develop a shared understanding of:

1. Integrated Care Partnerships, Systems and Boards and their roles in meeting the health and care needs of the population.
2. The key health and care challenges and priorities for Dorset and Hampshire and Isle of Wight.
3. The 'ask' to the research and innovation community.
4. Current approaches and sources of information that can help us understand population health need in Wessex.
5. What action is needed to increase partnership working, make the most of the resources we have and accelerate improvements in health and care through research, innovation and training.

Time	Topic	Speaker
09.00	Registration and refreshments
