

Southampton Emerging Therapies and Technologies (SETT) Clinical Theme Lead: Call for expressions of interest

The University of Southampton NHS Foundation Trust (UHS) Research and Development is inviting expressions of interest (EOI) for the role of Southampton Emerging Therapies and Technology (SETT) Centre Theme Leads in two exciting areas:

- Data and AI
- Medical Technology

Background

The SETT Centre has been established within UHS R&D to catalyse research and innovation, focused on NHS needs in emerging areas, with vanguard potential for clinical service development and substantial growth opportunity. For more information see [UHS Health Research](#).

This is aligned with [UHS R&D Research Strategy 'Research for Impact' 2023-2028](#).

Each Theme lead will be allocated **1 PA** to:

- Define, lead and oversee a portfolio of research and innovation relevant to the Theme and the ambitions of the SETT Centre.
- Actively engage and support UHS clinicians, academics and external partners in relation to the Theme through developing and utilising research and innovation infrastructure to help enhance UHS reputation as a centre of excellence.
- Promote a culture of research and innovation throughout UHS supporting the Trust's strategic ambition to be a leading university teaching hospital with a growing, reputable, innovative research and development portfolio that attracts the best staff and efficiently delivers the best possible treatments and care for our patients.

The full job role and person specification is attached. One post is available for each Theme.

Expressions of interests should be made through submission of an up-to-date curriculum vitae (CV) and supporting statement to Keira Parker (Keira.Parker@uhs.nhs.uk), stating which of the two themes the applicant is interested in. The deadline for submissions is **Friday 17th May 5pm**.

Expressions of interest will be shortlisted. An interview for shortlisted applicants will be held on **Friday 7th June in the afternoon** via Microsoft Teams.
