

Aria – prescribing updated version of regimen (June 2018)

If the regimen has been updated since prescribing a red star will appear under the regimen name in the left of the screen.

Regimen amended since last order will appear on the bottom right of the screen.

The screenshot shows the Aria interface with the following details:

- Navigation tabs: Treatment, Orders / Rx, Medication History, Plan History, Regimen Library.
- Regimen Name: Ceritinib
- Order Status: Not Ordered
- Medications: CERITINIB 750 mg capsule Oral daily for 28 days; METOCLOPRAMIDE 10 mg tablet Oral t.d.s. PRN
- Regimen Status: Regimen amended since last order (indicated by a red star and text on the right).
- Table of Cycle Start Dates:

Cycle	Cycle Start
1	Nov 17, 2017
2	Dec 15, 2017
3	Jan 19, 2018
4	Feb 16, 2018
5	Mar 16, 2018
6	Apr 13, 2018
7	May 11, 2018
8	Jun 08, 2018 ✓
9	Jul 06, 2018
10	Aug 03, 2018
11	Aug 31, 2018
12	Sep 28, 2018

To update the regimen to the latest version click the green pen icon to the right of red star, click Show/Apply amendments from the drop down menu, this shows the changes;

The 'Update Regimen' dialog box contains the following information:

- Current Regimen: Ceritinib (v2.0)
- Amended Regimen: Ceritinib (v3.0)
- Phase 1: Agents Modified: CERITINIB
- Current Agent Description: 750 mg capsule Oral
- Amended Agent Description: 450 mg capsule Oral
- Current Administration Instructions: If a dose is missed, the patient should make up that dose, unless the next dose is due within 12 hours. The capsules must be taken on an Amended Administration Instructions: The capsules must be taken with food.
- Swallow whole, do not chew or crush. If a dose is missed, the patient should make up that dose, unless the next dose is due within 12 hours.
- Warning: If the regimen amendment includes dose increases (excluding PRN doses), changes to the number of cycles, and/or changes to the cycle length these changes will be excluded in the amendment process.
- Update Regimen options:
 - Update patient data with amended plan changes
 - Leave patient on current plan without amendments
- Buttons: OK, Cancel

You can choose to Update patient with amended plan or leave on current plan.

Warning – if the regimen amendment includes dose increases (excluding PRN doses), changes to the number of cycles, and/or changes to the cycle length these changes will be excluded in the amendment process to new version.
