

# Testing for HIV, Hepatitis B and Hepatitis C

These are illnesses that affect the blood and cells in your body.

If you are aged 16 or older you can have your blood tested for these illnesses in a London accident and emergency department (A&E).

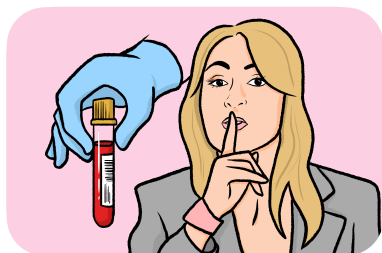

It is important to find these illnesses early.

If you get treatment for these illnesses early enough can save your life.

Treatment for these illnesses is free with the NHS.

Your blood test results are kept private.

If you do not want to be tested for these illnesses please let a member of staff know.
